Happy Fire Prevention Week!

Smoke alarms will be arriving ASAP.

The American Red Cross (ARC) in Wisconsin has been heavily tasked to support the Hurricane Matthew Recovery. ARC Wisconsin has sent multiple Emergency Response Vehicles and 75 volunteers to support with that effort. Smoke alarms are feverishly being distributed at this time.

The Fox Valley and most of Northern Wisconsin should be done within the next day. Milwaukee and South Eastern Wisconsin and Madison and Southwestern Wisconsin should be done by the end of this week or early next week.

If you do not receive your requested smoke alarms by the end of next week please call us.

Also, we have setup a new option for you to send the completed service acknowledgement forms via a fax-to-file service, all you need to do is fax the completed forms to (866) 910-3115.

Thank you for your participation, understanding, and patience.

Yours in fire safety,

Michael J. Wos
